

Appendix

Campus Center Food Services Equipment List

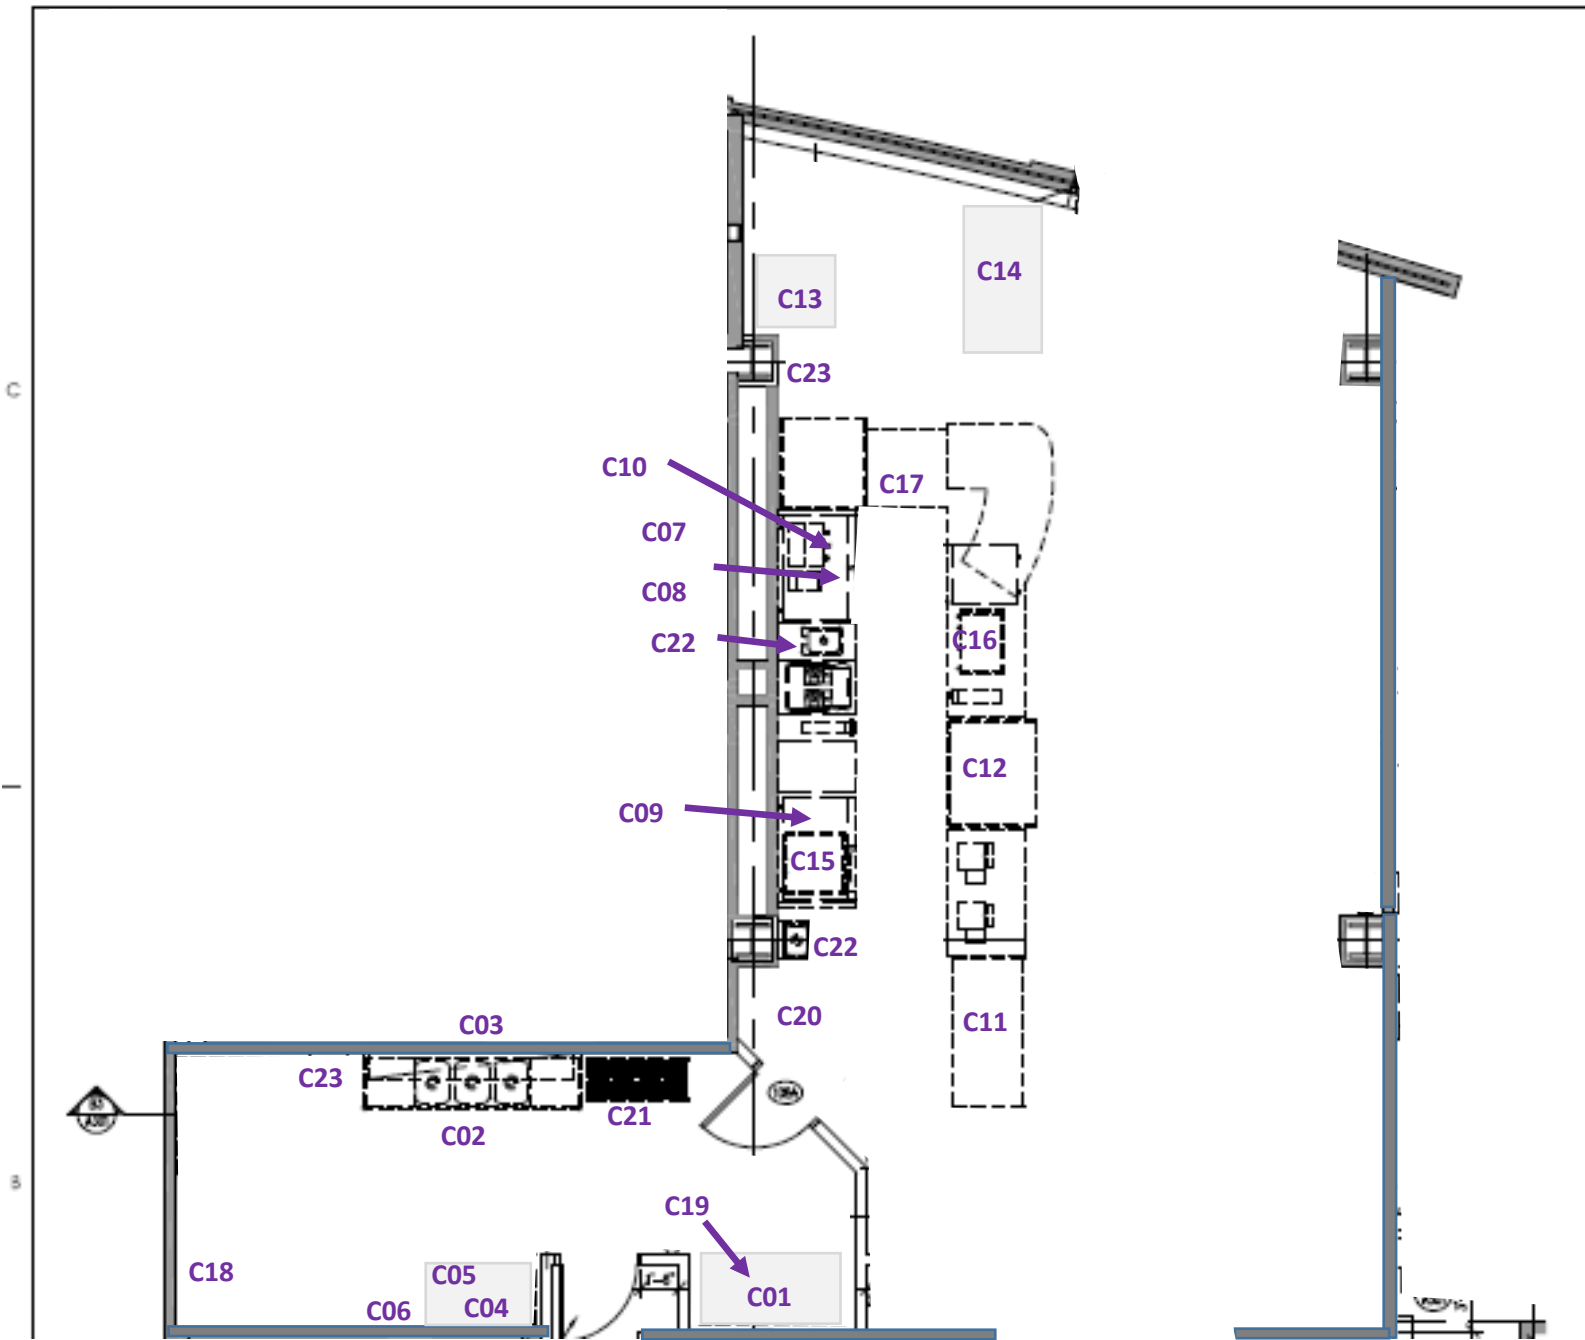

The following is a list of the equipment that is part of this current RFP listed by space. Each space includes the equipment, model number, and quantity. After each space is a diagram where the equipment appears on May 23, 2017.

Notes

- Due to the logistics involved, not all equipment could be moved to verify serial numbers. Serial numbers for the areas highlighted will be included in a final equipment inventory at the time of the contract award date after all equipment has been inspected and serviced. Please note that serial numbers are not listed for any items that do not have one visible on the equipment.
- Equipment not on the list will be removed from the food service space unless the Contractor and the University agree to incorporate into the awarded contract.
- Equipment that is replaced prior to the awarding of the contract, will be noted. Any equipment replaced will meet or exceed the functions of the replaced equipment.
- Any new equipment, not including replacements, added between May 23, 2017 and the awarding of the contract will be noted and provided as an addendum to this listing.
- Small wares and service wares are not included in the equipment listing provided.

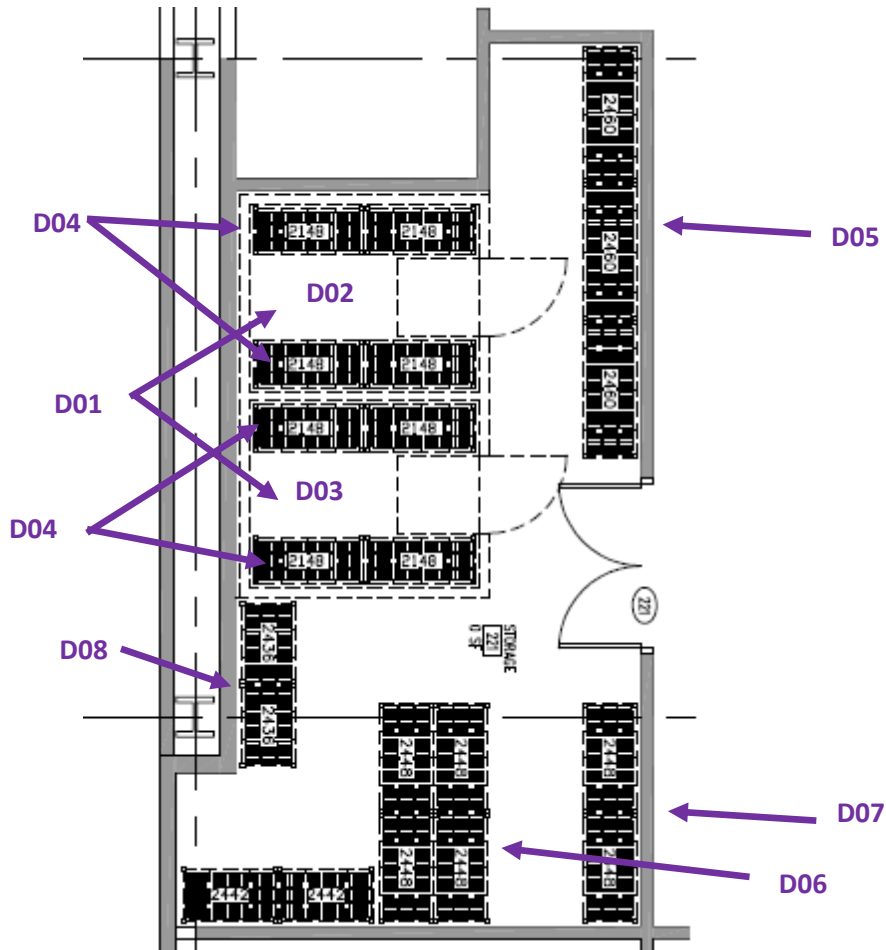

Café – 1st Floor

Item	Equipment	QT	Manufacture	Model	Serial #
C01	REFRIGERATOR, REACH-IN	1	TRUE FOOD SERVICE	TG-2RRI-2S	5247272
